

Par Series

Lightsense PAR Series are robust, Compact Housings for PAR 56 and PAR 64, High-intensity sealed-beam internal reflector lamp with the "SSS Quality System".

PAR-64 , 1000 Watt.

PAR-56 , 300 Watt.

Feature

1. Constructed from pressed – aluminum, steel sections which are hinged in the middle to permit lamp removal without the possibility of a part of the PAR CAN being dropped.
2. Body is coated in a heat and scratch-resistant matt black epoxy poser paint and PAR CAN also available in the polished aluminum finish.
3. A ceramic EMEP type lamp base is supplied.
4. Internal wire guard is permanently fitted to prevent glass from a broken lamp to fall from the front.
5. Replacing the lamp is easier than ever thanks to a special ring that facilitates quick relamping.
6. These units can be supplied with color flame.
7. Lamp 1000 w. 220-240vAC. For PAR-64
8. Lamp 300 w. 220-240 vAC. For PAR-56
