

## ACHITECTURAL CONTROL PSL PROUD SERIES LUNAR

Proud Intelligent lighting controller. Proud Series Lighting controller is a development from Lunar Series. It's superior technology allows digital lighting control and the ability to handle complex and large scale projects. Proud Series is convenient to setup and is suitable for Architectural lighting.

### PSL-PS Room Combine Switch

#### Feature

1. Operation controlled by Microcontroller.
2. Partitions room unlimited
3. Data In, Data Out RS-485.
4. Power Supply 18-24 V.DC.

#### Model Information

PSL-PS	Room Combine Switch
PSL-PSB	Room Combine Switch

#### Dimension

PSL-PS (WxHxD)	114 x115 x 60 mm.
PSL-PSB (WxHxD)	80 X 115 X 40 mm.

### PSL-HUB RS-485 Interface

#### Feature

1. Operation controlled by Microcontroller.
2. Can be Operate Independent with Computer BAS and Integrate Control.
3. Data In, Data Out RS-485.
4. Upto 32 Station Independent.
5. Power Supply 18-24 V.DC.

#### Model Information

PSL-HUB	RS-485 Interface Switch
PSL-HUBB	RS-485 Interface Switch

#### Dimension

PSL-HUB (WxHxD)	114 x115 x 60 mm.
PSL-HUBB (WxHxD)	80 X 115 X 40 mm.

### PSL-AD Analog to DMX-512

#### Feature

1. Operation controlled by Microcontroller.
2. Input Analog 0 - 10 VDC. (12 CH.) to DMX-512
3. 12 Input Terminal ( 0 - 10 VDC.)
4. Power Supply 18-24 V.DC.

#### Model Information

PSL-AD	Interface Analog Input 12 Ch. to DMX-512 Output
PSL-ADB	Interface Analog Input 12 Ch. to DMX-512 Output

#### Dimension

PSL-AD (WxHxD)	114 x115 x 60 mm.
PSL-ADB (WxHxD)	80 X 115 X 40 mm.
